ICAR sponsored

Winter School on

Responsible fishing: Recent advances in resource and energy conservation

The ICAR-Central Institute of Fisheries Technology, established in 1957, is a premier institution engaged in research & development in all branches of fisheries technology. The activities of the Institute are organized under seven scientific divisions viz;

- Fishing Technology
- Fish Processing
- Biochemistry and Nutrition
- Microbiology, Fermentation and Biotechnology
- Quality Assurance and Management
- Engineering
- Extension, Information & Statistics

The Institute has the state of the art laboratories and expertise in all these branches. As part of the National Policy of ICAR, the Institute is organizing this winter school under the auspices of the Fishing Technology Division, which has contributed immensely to the fishing industry since the inception of the institute. Great strides have been taken by the fishing sector in the past two decades in the field of fishing techniques, fishing gear material and design, design of energy efficient vessels and those using alternate energy. The issues of long term sustainability of resources, environmental safety and excess energy use have highlighted the need for adoption of responsible fishing techniques to conserve resources and energy.

Objective

The winter school aims at enlightening the participants about the present scenario and the need for resource and energy conservation. Alternative energy sources for reducing carbon footprint of the fishing sector will also be dealt with.

Duration: 21 days

November, 21 - December, 11 (2019)

Working hours: 09.30 to 16.30

Course content

Winter school will be built around theory & practical classes on the topics:

- FAO-Code of conduct for responsible fisheries
- Netting materials for resource conservation and energy saving
- Boat building materials and carbon foot print
- Design construction and operation of fishing gears
- Energy efficient fishing vessel; design and construction
- Alternate energy for fishing vessels
- Life Cycle assessment for fishing systems
- By catch Reduction Devices
- Environmental impact assessment of fishing materials protectants
- Policies and regulations in fishing

Eligibility

Scientist/ Asstt. Professor / Associate Professor from ICAR Institute/ SAU/ CAU / Other University/ Officer from Central / State agency/department.

The number of participants will be limited to 25.

How to apply

As per ICAR instructions, the interested candidates should register and apply online through Capacity Building Programme (CBP) portal as follows:

- Visit the website <http://cbp.icar.gov.in/>
- Login using your user ID and Password or to create user ID "Create New Account" link.
- After Login, click on "Participate in Training" link and fill the Performa.
- Applicant has to pay non-refundable registration fee of Rs. 50/- in the form of demand draft or postal order in favour of Director, ICAR-CIFT payable at Kochi.

Take a printout of the application and get it approved by the Competent Authority of the Institute/SAU. Upload the scanned copy of application through the above portal or send duly signed copy through proper channel to the Course Director of the training programme.

TA & DA

The participants will be paid to and fro travel fare by shortest route for journey by rail, bus or other means of transport as per their entitlement, restricting to 2 tier A/C. Participants are requested to produce a copy of the ticket for reimbursing the travel expenditure. Travel DA will be disbursed as per ICAR rules in lieu of incidental charges.
