**World Food Safety Day on June 7, 2026, highlights the need for practical science-based solutions to reduce food borne diseases and ensure access to safe food for all. Facilitated by the FAO and WHO, the day aims to raise awareness and spur action to prevent, detect, and manage foodborne risks, promoting food security, health, economic growth, agriculture, market access, tourism, and sustainability. A webinar is being organized on 9<sup>th</sup> June 2026 to commemorate world food safety day.**
